# 02

# Why Select Bamboo As Tissue Raw Material

# Why Select Bamboo As Tissue Raw Material

## Eco-Friendly

Bamboo is a member of the grass family, after harvested, it will regrow and make pulp in one years, NO compostable, it grow naturally

## Tree Free

Better proect forest resource and environment

## Environmental friendly

Bamboo absorb 1.4 times more carbon dioxide than tree or forest

Bamboo water storage in the ground is 1.3 times more than tree or forest

Bamboo fibres belongs to broad-leaf species and coniferous trees, it is well suited tissue for household tissue

# 03
