Product introduction

- Material: ABS shell + UV varnish spray, PP liner;
- Hair material: nylon;
- The inner is a vacuum pressing structure;
- Packaging: Opp (accept custom packaging)

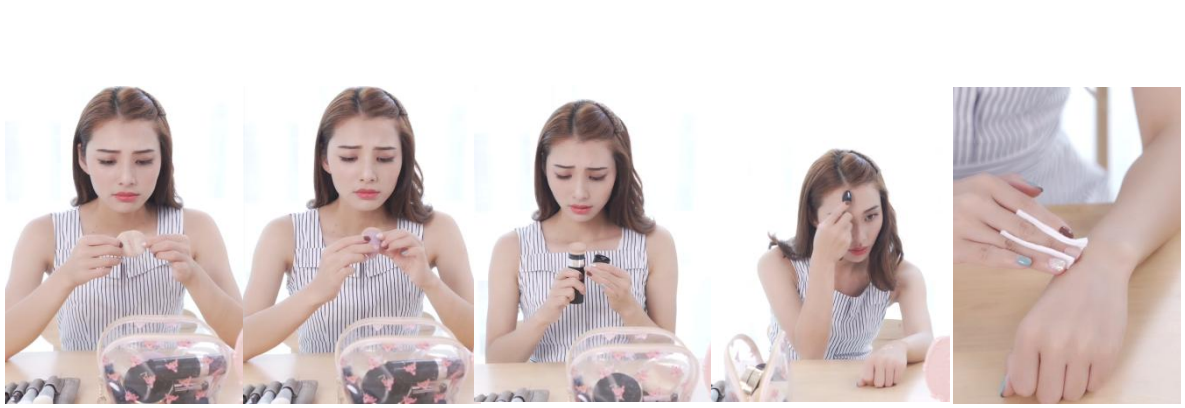

Function introduction

- Combining two into one (brush and container), you can pack your favorite brand of liquid foundation, concealer, BB cream, CC cream into our foundation brush inner bottle.

Function introduction

- Easy to apply makeup, compared to hand tools, powder puff and other auxiliary tools, this brush greatly saves a lot of unnecessary movements and is easy to apply.

Function introduction

- Save cosmetics, you can brush the entire face with only one press, and the makeup base is smooth and delicate.

Function introduction

- Easy to carry. bring a big tin and a small tin with a bag, and now you just need a brush with liquid foundation to go out.

Function introduction

- The main thing is that the brush head part can be pulled out for cleaning and can also be replaced.
